

A Vision for Nordic e-Infrastructure Collaboration

A Vision for Nordic e-Infrastructure Collaboration

Speaker

Gudmund
Høst

Track

Track 1

Session

Opening
Session

Descriptor

The Nordic collaboration on e-Infrastructures will be presented. The background of the collaboration will be described, as well as the current status and emerging opportunities.

Presentation documents

- [Gudmund_Høst.pdf](#)

All talks

A Vision for Nordic e-Infrastructure Collaboration	NorStore – Managing Digital Research Data in Norway
A national archive for digital research data	Nordic Contributions to Developing a European Digital Services Infrastructure for Social Sciences and Humanities
ATLAS Computing: status and plans	Nordic Opportunities for Cloud Software Collaboration
Advanced User Support in the Swedish National HPC Infrastructure	Nordic Opportunities for Digital Humanities
BBMRI requirements and use of the e-Infrastructure	Nordic Storage Opportunities
Bioinformatics	Official opening
Building and maintaining services for Sensitive Data	Panel discussion
Closing Keynote	Panel discussion
Co-chair for WS Security I	Panel discussion
Co-chair for WS Security II	Panel discussion
Co-chair for WS Security III	Plans for the Large Hadron Collider
Co-chair for WS Security IV	Reproduce and share: the key to the new generation scientific portal at UiO based on the Galaxy framework
Conference conclusions and closing	Research Data Initiatives in Sweden
Design and implementation of an energy efficient high density data center	ScalaLife Competence Center - Providing tailored made support to the computational Life Science communities
Developing Global Data Infrastructures: Trends and Requirements	Science Gateways and their enabling technologies from EGI and SCI-BUS
EGI: Going beyond support for WLCG	Science Gateways in climate research
EISCAT requirements and use of the e-Infrastructure	TTA – National Research Data Project in Finland
EUDAT - Towards a Collaborative Data Infrastructure - A Nordic Perspective?	The energy cost of compressing sparse matrices for performance
EUDAT: Towards a European Collaborative Data Infrastructure	Tidying up the Basement: A Tale of Large-Scale Parsing on National eInfrastructure
Enabling excellent science through High-Performance Computing	Towards the clouds, together. Collaboration on cloud services in research and education
Fido - Providing a secure and convenient gateway to packaged HPC jobs	WS Analysis and Actions
From Old-School to New-School Operation of HPC	Welcome
Future e-Infrastructure Requirements for the EISCAT facilities	Welcome from NTNU
Kajaani Data Center - case study	What business are we in? Data-centric research, service requirements and national responses
Meteorological Co-operation on Operational NWP (Numerical weather prediction) between Sweden and Norway	Ws Introduction to IaaS in Life Science in the Nordics
NDGF - lessons learned	~okeanos and Synnefo: The public cloud service and the open source software that powers it
