

Panel discussion

Panel discussion

Track Track 1
Session Cloud Computing - Opportunities and Challenges
Description

All talks

A Vision for Nordic e-Infrastructure Collaboration	NorStore – Managing Digital Research Data in Norway
A national archive for digital research data	Nordic Contributions to Developing a European Digital Services Infrastructure for Social Sciences and Humanities
ATLAS Computing: status and plans	Nordic Opportunities for Cloud Software Collaboration
Advanced User Support in the Swedish National HPC Infrastructure	Nordic Opportunities for Digital Humanities
BBMRI requirements and use of the e-Infrastructure	Nordic Storage Opportunities
Bioinformatics	Official opening
Building and maintaining services for Sensitive Data	Panel discussion
Closing Keynote	Panel discussion
Co-chair for WS Security I	Panel discussion
Co-chair for WS Security II	Panel discussion
Co-chair for WS Security III	Panel discussion
Co-chair for WS Security IV	Plans for the Large Hadron Collider
Conference conclusions and closing	Reproduce and share: the key to the new generation scientific portal at UiO based on the Galaxy framework
Design and implementation of an energy efficient high density data center	Research Data Initiatives in Sweden
Developing Global Data Infrastructures: Trends and Requirements	ScalaLife Competence Center - Providing tailored made support to the computational Life Science communities
EGI: Going beyond support for WLCG	Science Gateways and their enabling technologies from EGI and SCI-BUS
EISCAT requirements and use of the e-Infrastructure	Science Gateways in climate research
EUDAT - Towards a Collaborative Data Infrastructure - A Nordic Perspective?	TTA – National Research Data Project in Finland
EUDAT: Towards a European Collaborative Data Infrastructure	The energy cost of compressing sparse matrices for performance
Enabling excellent science through High-Performance Computing	Tidying up the Basement: A Tale of Large-Scale Parsing on National eInfrastructure
Fido - Providing a secure and convenient gateway to packaged HPC jobs	Towards the clouds, together. Collaboration on cloud services in research and education
From Old-School to New-School Operation of HPC	WS Analysis and Actions
Future e-Infrastructure Requirements for the EISCAT facilities	Welcome
Kajaani Data Center - case study	Welcome from NTNU
Meteorological Co-operation on Operational NWP (Numerical weather prediction) between Sweden and Norway	What business are we in? Data-centric research, service requirements and national responses
NDGF - lessons learned	Ws Introduction to IaaS in Life Science in the Nordics
	-okeanos and Synnefo: The public cloud service and the open source software that powers it
